Dover's Pump Solutions Group Acquires The EnviroGear® Product Line

Downers Grove, IL – **January 28th, 2011**– Pump Solutions Group (PSG), a business unit operating within the Dover Fluid Management Segment of Dover Corporation, is proud to announce the acquisition of the EnviroGear® product line from PeopleFlo Manufacturing, Inc. of Franklin Park, IL. EnviroGear® will become a new brand of PSG. The manufacturing of the product line will be relocated to PSG's facility in Grand Terrace, CA. Terms of the transaction were not disclosed.

The EnviroGear® product line is a portfolio of magnetically coupled internal gear pumps with patented technology. These seal-less pumps provide unparalleled safety, performance, and reliability by providing zero-leak environmental protection. The pump's patented features greatly reduce wear of key components and provide dimensional interchangeability for easy replacement of any brand of internal gear pump in the market. These pumps are designed to be used in a wide range of industrial applications.

"The addition of EnviroGear® complements PSG's product portfolio of premium global brands in the positive displacement pump space," said Dean Douglas, President of PSG. "PSG will be able to leverage sales synergies through its global platform of channel partners to offer customers the best product in terms of value and benefits."

"The EnviroGear® acquisition is a key component of PSG's M&A strategy," added Gary Lent, PSG's Vice President of Corporate Development. "We will continue to explore acquisition opportunities that enhance PSG and its product lines."

The Pump Solutions Group (PSG) was formed to deliver cohesion, synergies and relevant value to customers with superior products, world class operations, and a commitment to excellence. EnviroGear® joins a list of premium pump brands that offer a broad array of quality and innovative pump technologies including: Almatec®, Blackmer®, Griswold®, Movex®, Neptune™, and Wilden®.
